Enter the file name for saving: /Users/dlitvakk21/CLionProjects/text-editor/savetext.txt
Saved to file!
```

```
1       Hello! My name is Dana.
2       How are you?
```

The "savetext.txt" file, where we saved the information from memory.

The "loadtext.txt" file, from which we load text:

```
1       I saw a little bird go hop, hop, hop.
2       I told the little bird to stop, stop, stop.
3       I went to the window to say 'How do you do?'
4       He wagged his little tail and far away he flew!
```

```
Enter the command: 4
Enter the file name for loading: /Users/dlitvakk21/CLionProjects/text-editor/loadtext.txt
Loaded from file!
Enter the command: 5
I saw a little bird go hop, hop, hop.
I told the little bird to stop, stop, stop.
I went to the window to say 'How do you do?'
He wagged his little tail and far away he flew!
```

5. Inserting text into the position, given by the user

```
Enter the command: 6
Enter the line and position to insert the text: 0 2
Enter the text to insert: , (Dana)
Text inserted!
Enter the command: 5
I , (Dana)saw a little bird go hop, hop, hop.
I told the little bird to stop, stop, stop.
I went to the window to say 'How do you do?'
He wagged his little tail and far away he flew!
```

6. Searching for text and finishing the work with a console program.

```
Enter the command: 7
Enter the text to search: stop
Found 'stop' at line 1, position 27
Found 'stop' at line 1, position 33
Found 'stop' at line 1, position 39
```

```
Enter the command: 0
Thanks for using the program!
```
